THE DENTALA 1967

**Published by the
1967 Senior Class
of the University of
Alabama School
of Dentistry
Birmingham, Alabama**

Foreword

The Dentala is designed to record by words and pictures-the students, the faculty, the personnel, the organizations, as well as the moments of doubt, and the moments of success during our years of study at the University of Alabama School of Dentistry.

The 1967 Dentala staff has tried to capture these moments by making use of many snapshots from our school years, and by delaying publication enough to include all events of our Senior year. It is our sincere hope that this Dentala will bring back pleasant memories for years to come.

The staff is happy to present to you THE DENTALA 1967.

Dedication

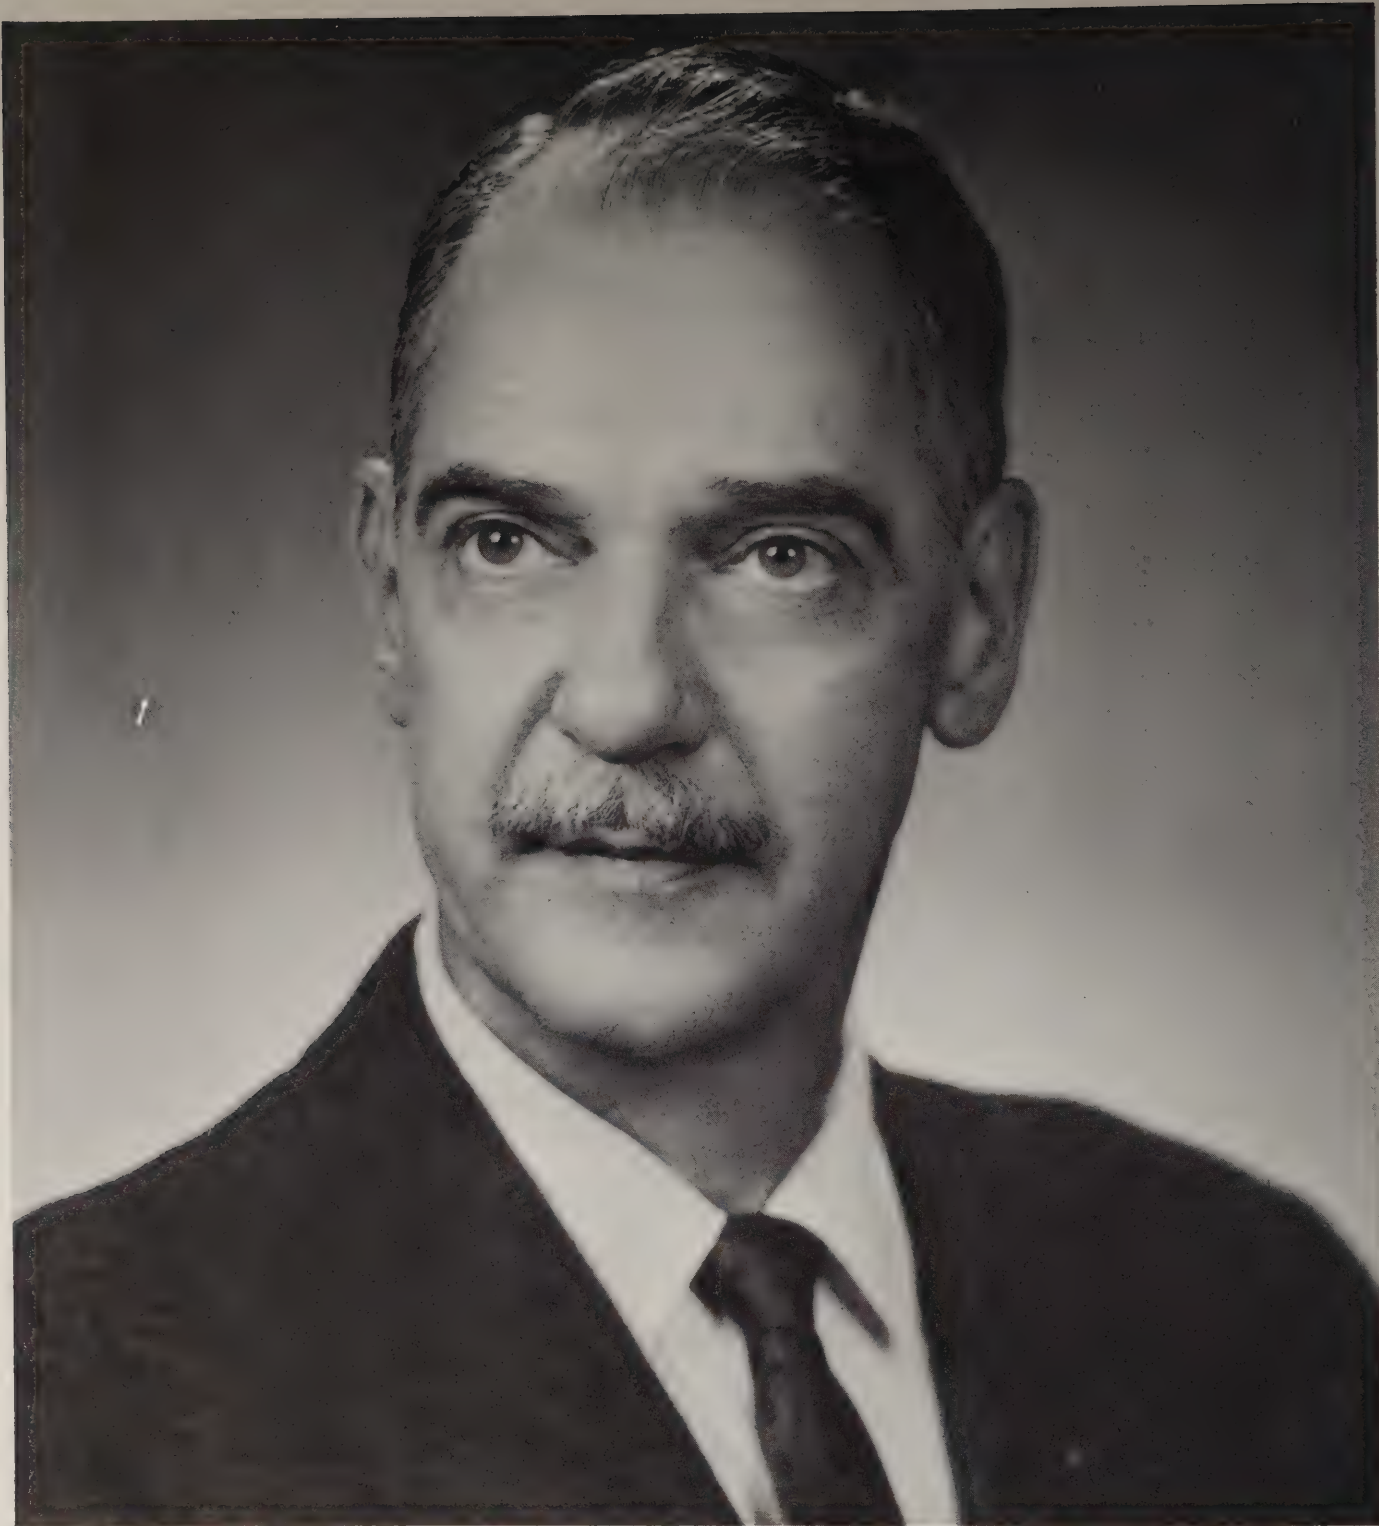

The Senior Class of 1967 wishes to honor many people who have contributed much to our years at the School of Dentistry. It is with much pride and heart felt thanks that we dedicate this edition of the Dentala to our wives and families. They have made it all possible and worthwhile.

Tribute

Seldom does one find a man with greater knowledge of his subject, nor one with greater ability to teach, nor one with a stronger desire to be a real friend and aid to the student, than Dr. Adeeb E. Thomas. The Senior Class of 1967 wishes to say a special thanks to Dr. Thomas for the many times he has helped us and stood up for us.

Tribute

For his untiring efforts on our behalf and kind guidance during our early years, the Senior Class of 1967 pay special tribute to Dr. Theodore E. Fischer.

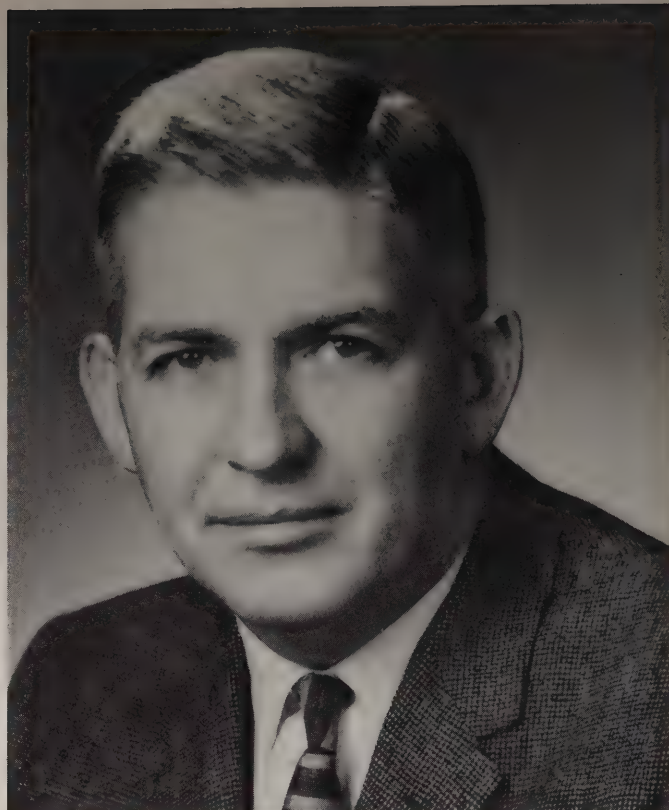

Tribute

Words could not fully express the thanks we say
to Mr. Johnnie Gibbs. Thanks "Chief."

DEAN
DR. CHARLES A. McCALLUM

the University of Alabama in Birmingham / 1919 SEVENTH AVENUE SOUTH / BIRMINGHAM, ALABAMA 35233

the Medical Center / SCHOOL OF DENTISTRY

This year has a particular significance for the profession of dentistry, not only because you will receive your degrees but also because 100 years ago dentistry became a part of the university. In May of 1967, Harvard School of Dental Medicine celebrated its centennial. It was at that institution that dentistry was first accepted into the university family. This provided a great challenge -- a great opportunity -- but also a great responsibility. Dentistry has responded to this challenge and has made a valuable contribution to the university and the people of our country.

You have been trained for a specific professional responsibility; however, I would hope that you have been educated broadly enough to permit you to adapt to the changing times and, more importantly, to contribute to the betterment of mankind. You are healers of disease, but never forget that you are dealing with people, not only their physical conditions but also their emotions. In the final analysis, there is no such thing as a specialist in disease, only a specialist in people.

I would be remiss if I indicated to you that your education has terminated with the awarding of your doctorate degree. It has not; it is a lifelong process. We hope we have instilled in you a responsibility, as well as a desire, for continuing education. The guidance of the faculty ends with your formal training, but as a noted physician, Sir William Osler, said, "it is by your own eyes, and your ears, and your own mind and (I may add) your own heart that you must observe and learn and profit."

On behalf of the faculty I congratulate you on your past accomplishments and wish you a good life filled with satisfaction, achievements, health and happiness. It has been a pleasure to have spent these four years with you, and we are proud to add you to the alumni of the University of Alabama School of Dentistry.

As a matter of fact, I am going back to Augusta, for the fertility rites!!

WILLIAM EDWARD HOLLEY, JR.

B.S., Troy State College, 1960
Florala, Alabama

Dr. Hammons, before you check off that inlay prep, I brung you another coon dog.

MICHAEL LEWIS HUGHES
University of Alabama
Gadsden, Alabama

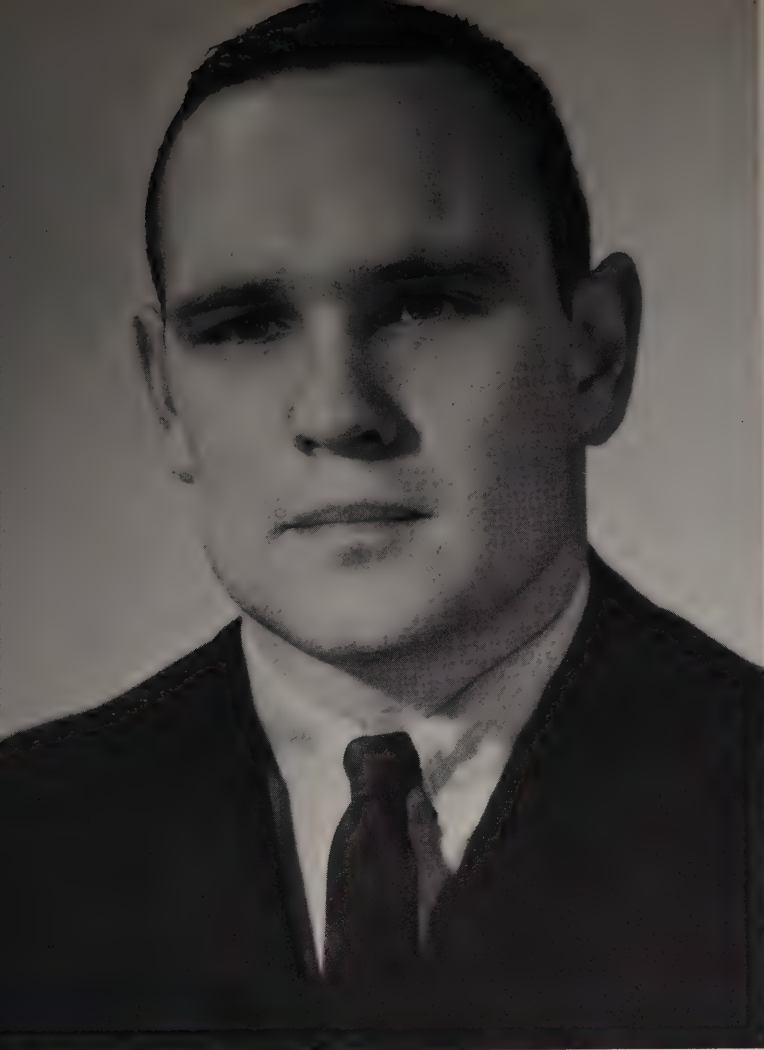

Now that I'm seeing 20 patients a day, Scotty should give me a lab man.

LELAND HULL, JR.
Birmingham-Southern College
Birmingham, Alabama

I'll be to bed in a minute, Honey. These outside readings are hell.

WILLIAM CROOM HURST
B.S., Samford University, 1963
Waycross, Georgia

I love the Batman mask; the silver bullet; the freckle bug; and Dr. Sim.

JAMES MALLORY JENKINS, JR.
B.S., Auburn University, 1964
Roanoke, Alabama

Well, Bodner, I guess we are blood brothers now!

CUE BERNARD JOHNSTON

Auburn University
Brundige, Alabama

To truly understand the pedodontic patient, you must get down on their level.

ROBERT ESTES KOONCE, JR.

B.S., University of Alabama, 1964
Florence, Alabama

I wonder if I'll ever get to the top?

ARTHUR ERWIN LEWIS
Birmingham-Southern College
Birmingham, Alabama

RUSSELL HARMON LOWERY
B.S., University of Alabama, 1963
Montgomery, Alabama

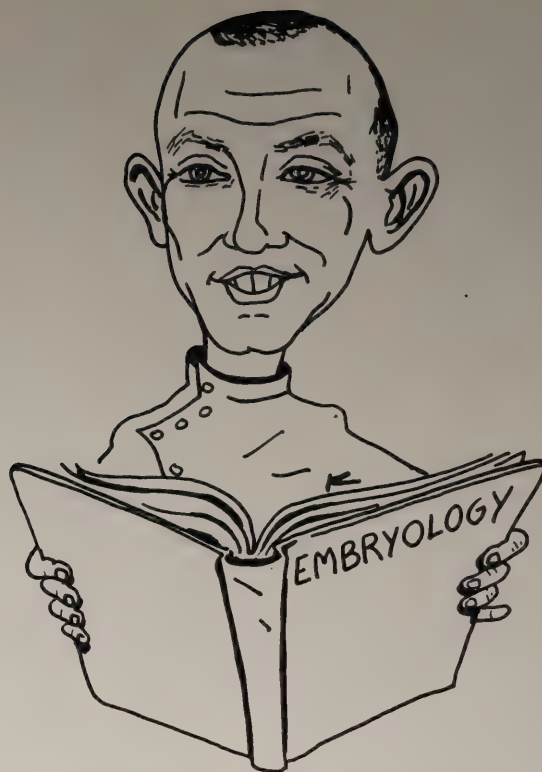

And so when I meet you in Pado today, I figured we'd come cover to my pad, listen to a few Red Fox albums, have a few drinks, etc., etc.

JAMES JOHN MERIG, JR.
B.S., Spring Hill College, 1959
Mobile, Alabama

Hey, Sybil, come quick. I've finally found out what causes babies.

MAURICE LELAND MIXSON
A.B., Emory University, 1962
New Brockton, Alabama

As a matter of fact, Dr. Thomas, this is my new squirrel gun.

THOMAS POPE MOSELEY

B.S., University of Alabama, 1963
Montgomery, Alabama

Sorry, boys, we'll have to end this meeting.
Dr. Speed and I have to go to a class reunion.

ELLIS TAYLOR MULLINAX, JR.

B.S., University of Alabama, 1962
Fort Payne, Alabama

Well er doctor, I know it's late,
but I have 34 more ridiculous questions and
19 more totally unfounded theories to present.

THOMAS HAMNER MYERS
B.S., University of Alabama, 1964
Birmingham, Alabama

There will never be a damn cat in my house.

JOHN HUGULEY NAFTEL
Auburn University
Auburn, Alabama

And I didn't even get kissed.

THOMAS WILLIAM PARISH, JR.
B.S. Auburn University, 1963
Clayton, Alabama

Dr. Hammons, how about checking off these here inlays?

JERRY LEE PARKER
A.B. Birmingham-Southern College, 1962
Birmingham, Alabama

Come on, Waddell, let's have a drink and raise some heck.

TYLER WAYNE PRIM
B.S., University of Alabama, 1964
Dothan, Alabama

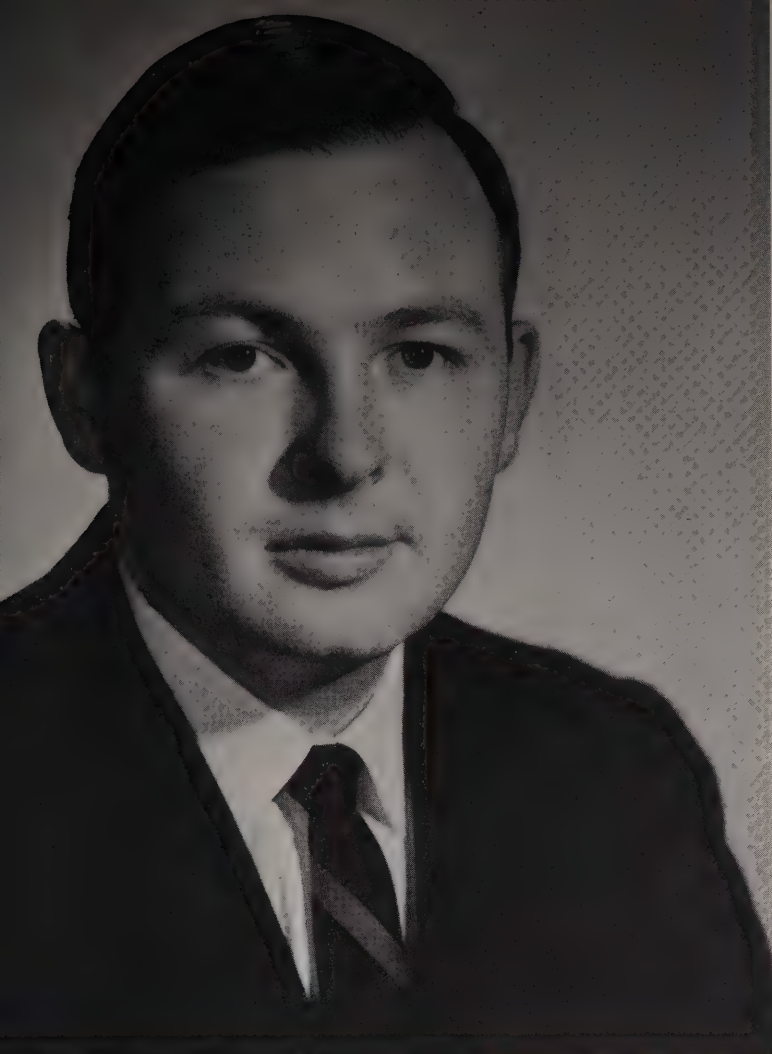

Don't sweat this dentistry, boys.

WILLIAM NEWTON SHARP, III
B.S., Auburn University, 1964
Opelika, Alabama

Anyone for tennis, Dr. Allen?

CHARLES EDWIN SMITH
B.S., University of Alabama, 1961
Opp, Alabama

Dr. Thomas, would you like to talk to Newton
over my 2-way radio?

BYRON ELLWOOD SNELL, JR.
B.S., Auburn University, 1963
Birmingham, Alabama

GEORGE CAROL STACEY
B.S., Alabama College, 1963
Excel, Alabama

I do this for in-dig-nut patients.

JAMES RANDALL STRAIT
B.S., University of Alabama, 1963
Tuscumbia, Alabama

Hi, girls, I'm here and I brought my new XKE.

GEORGE SWIFT VOLTZ, JR.
B.S., University of Alabama, 1963
Selma, Alabama

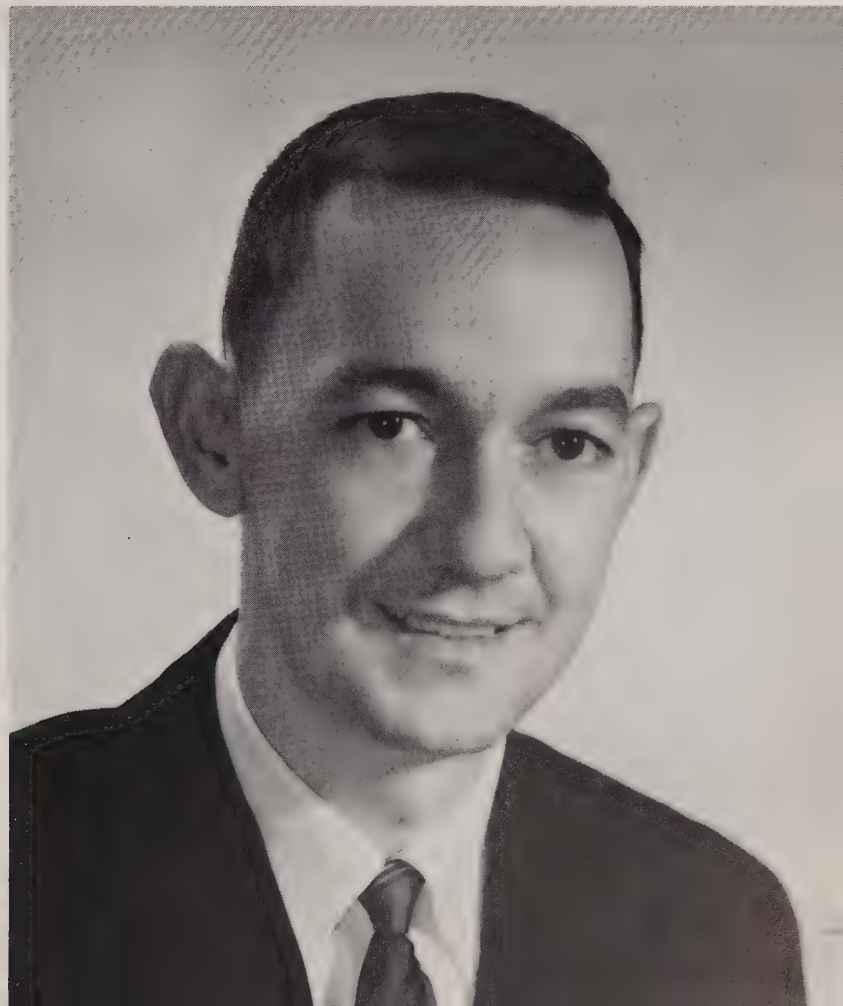

Hi, babe! Would you like to get engaged?

MERDITH GLOY WADDELL
B.S., Florence State College, 1962
Tuscumbia, Alabama

Save me a drink, Parker.

ARNOLD STERLING WHITE, JR.
Florida State University
Gulfport, Florida

Don't tell Merig I have this.

LAURA JOYE DAVIS WRIGHT
A.B., Huntington College, 1964
Ozark, Alabama

Could I have a funnel, please?

WILLIAM EARL WRIGHT, JR.
B.S., University of Alabama, 1963
Tuscaloosa, Alabama

I'm almost finished, Honey.

Senior class enjoys a stimulating lecture in Public Health.

Miss Preventive Dentistry.

Girl Watchers meeting.

Ken, what's good for the shakes?

y award for best walkie-talkie.

A teacher's teacher.

But I need a total patient now - school is out in 2 weeks.

This guy is full of bull.

Dr. Holt is always busy.

Boys, observe a couple of the finer things in life.

Fleming works with the "Best Assistant Award" winner.

That's good! Now, shoe all four cusps and crown it.

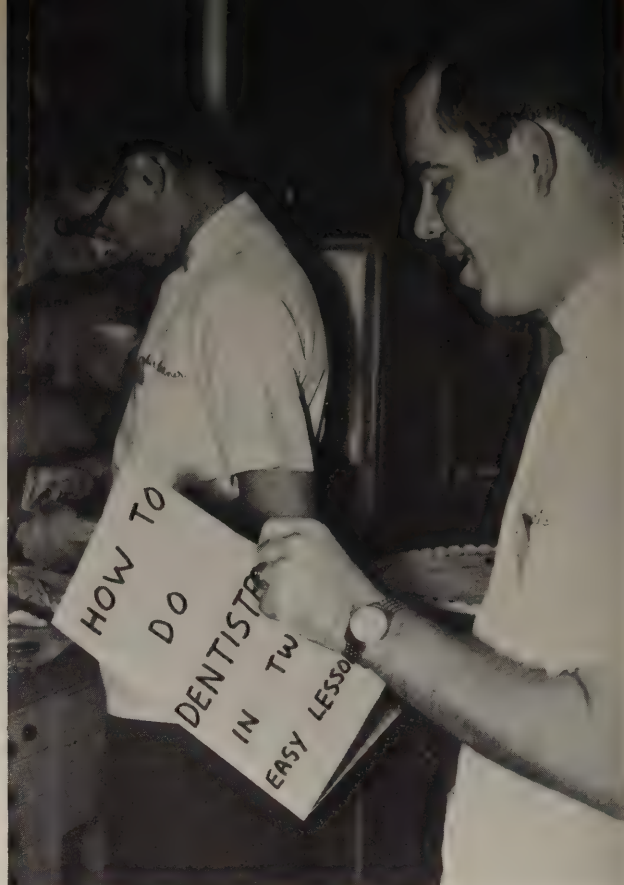

I find it hard to work with 2 hands.

Seniors practice preventive dentistry.

I need an arrowhead.

Hey, Bod, it says right here . . .

Mr. President.

Where is that inlay?

I could do better underwater.

Bill!!! Where is my inlay?

I'm casting it right now, honey.

Hey, Norman, try patient education.

These little red tablets with help tighten up those dentures.

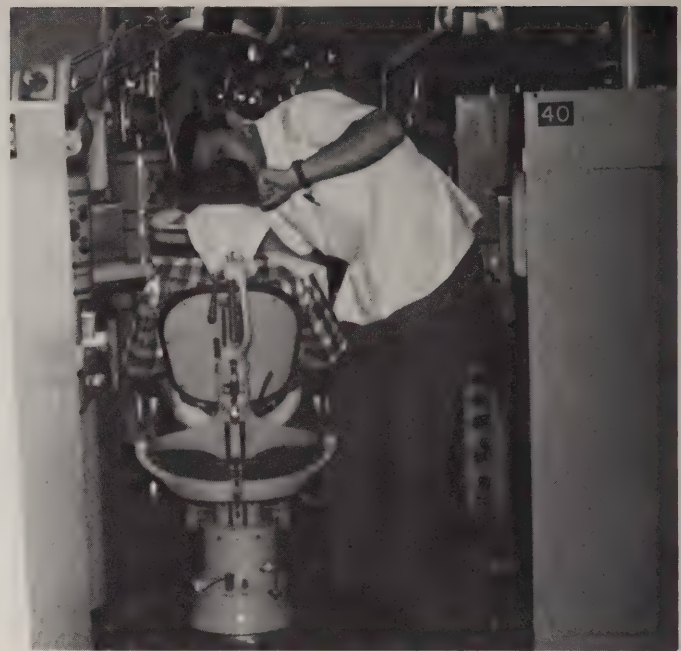

Drop your lip a little.

I've seen a thousand of them.

Climb on in.

Anybody heard the Dow-Jones averages today?

John, how about helping me in the Junior-Senior lab?

Yassah, Boss-man, it sho is sore in my retro-molar area.

Don't you Juniors know how to do anything?

What fertility dance?

Wolf on the prowl.

Come here, baby.

Dr. Sims says, etc.

Zoom!!!

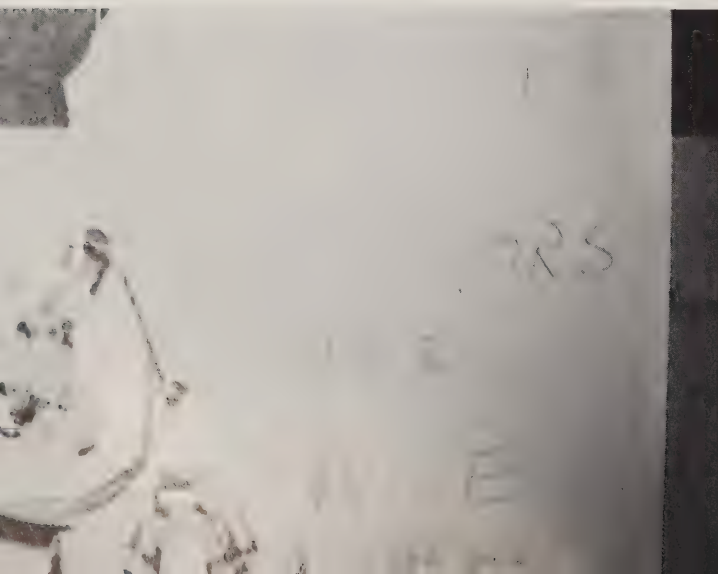

Wipe that silly grin off your face.

Boys, would you like to hear about the Fultondale Motel?

Overhang.

Batman mask.

Where's Peggy?

It's about the price of a Grand Prix.

Somebody wake Dr. Bodden.

Which one is the patient?

Takes an idiot to watch T.V. with it off.

Mr. Nice Guy.

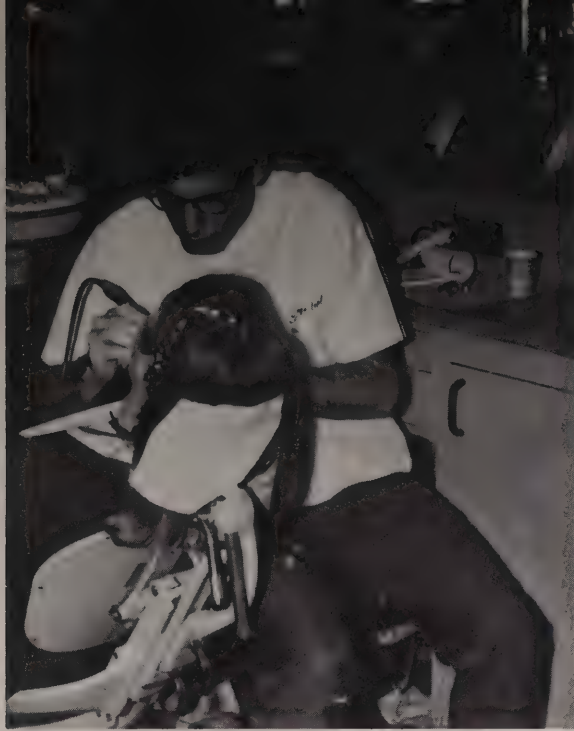

Guess who!!

Get out of here, Smith

Who spiked the Lavioris?

Dentistry is very relaxing.

Don't you wish you had it made?

Dr. Powell, is that what you call a crown?

See, I can remove this tooth while the patient is hypnotized.

Bring me a step-ladder.

Leland, come on to bed.

Hey, somebody let me out!

Oh, he's a good kid. Kind of stupid, but a good kid.

What are you checking out, Dr. Huffstutler?

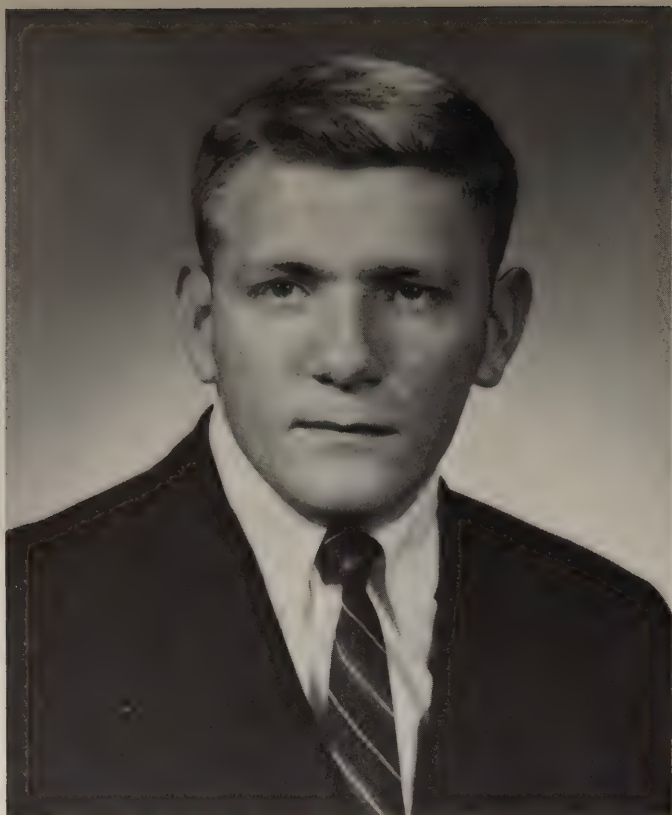

My daddy is a dentist, so that makes me a dentist.
Right?

JUNIORS

Watching the peasants.

Oh!! My God, John.

If your husband had been President of the class for three years, you could get your picture on the same page three times.

Senior Night

Roll Call

"The Presidents Award," Dr. Thomas.

Time for a coffee break.

"Chief"

The 1,000 Club Award to Big Ben.

Paul Huber was a real nice guy.

Bryce Hospital "Best Special Clinic Award."

Dr. Miller made many trips to the stand and never did get a good award. It's a shame Dr. Pelton could not be present to pick up his on awards. He earned them.

"The Big Eraser Award" winner, Dr. McCallum.

"Good Guy Award," Dr. Fischer.

"Best Clinical Instructor Award" Dr. Sim.

"Rookie of the Year Award" Dr. Ripa.

You wake Dr. Bodden and we'll really have an emergency.

Even ditch diggers get a coffee break.

These X-rays are to old; they are not still wet.

So this is where you little mechanics work.

Which is worse, "Cancer or caries?"

Big Ben to the rescue.

Some people

. were drunk.

I've gotta award to give, and it's a bad one.

"The Horses' . . . award" to Big Ben.

This is getting to be a habit with me.

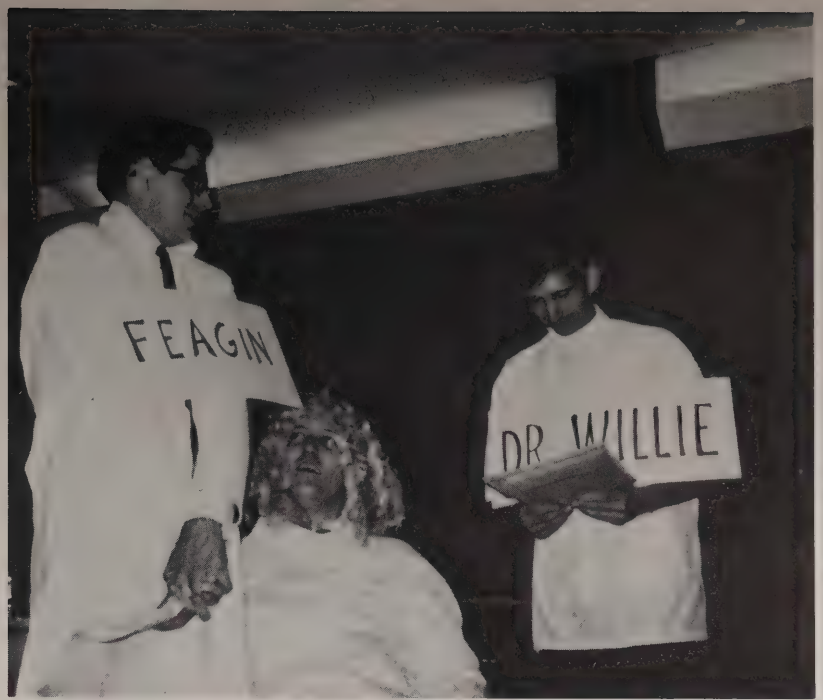

"The Biggest Waste of Time," Dr. Holt.

"Funniest Lecturer Award" Dr. Taylor.

Norman, are you drunk?

"Worst Special Clinic" Periodontology.

"The Do-Nothing Award" Dr. Manson-Hing.

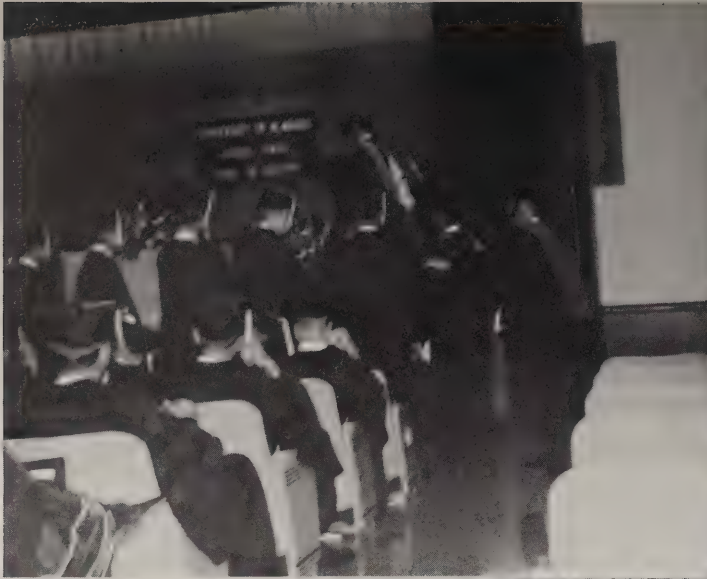

"Best Special Clinic Award" Pedodontics.

Give them hell, Bod.

PERSONNEL

The photograph shows a person's hands interacting with a document from Livingston State College. The document is a form titled "LIVINGSTON STATE COLLEGE" and "UNIVERSITY". It includes a portrait of a man, a list of courses, and a table of scores. The person's left hand is resting on the document, and their right hand is holding a pen. A watch is visible on the left wrist.

Tom, Bob doesn't have the RA'S anymore because . . .

We finally made it by damn.

Class History

It would probably be in the best interest of the public to leave unwritten the history of the Class of 1967. However, because of the frequent accolades from the administration and the pungent remarks from the faculty, we decided to make our final contribution to the annuals of history and to perpetrate a few more choice words for those of the faculty who can read.

When we arrived on campus (?) four years ago, we were acquainted with only a few people around the Medical Center. The Basic Science Building seemed so large then that one could get lost going from class to class. However, as our senior year draws to an end, there is no where to go, or hide, without meeting someone who knows where you **should be**.

During those first few days we were welcomed by everybody who was anybody - from Rochelle to Scotty. We were told that we were a very select group of students, "the cream of the crop," only to be told later by the Anatomy Department that "some of you will flunk out."

We spent our life savings the first week buying books we couldn't carry, bags full of tools, called instruments, we haven't used, and drinking free beer with faculty members who never spoke to us again.

Our first semester we took a variety of courses that formed the basis of our dental education. No one will forget the hours spent on the 6th floor morgue relating the gluteus maximus to the top of a cold steel stool while being carefully observed and directed by the front page of the Post-Herald.

Everyone took great interest also in the history of the library and how to find articles catalogued 50 different ways and multiplied by the dewey decimals. Nevertheless, when the time came to find that article Dr. Cheraskin wanted us to read, we had to ask the librarian to get it.

Microanatomy was probably our favorite course that semester with Ellis interrupting daily to ask, "Doctor, can we say -- one osteoclast working twenty-four hours a day can remove more bone than an osteoblast can make, or vice versa with six hours to spare?"

Everybody remembers Dr. Hitchcock and dental anatomy with all the "slightly more concave on the mesial, especially in the middle third but not so on the second and third molars and maxillary premolars; however, in some cases the reverse of this is true."

Continued Next Page

CLASS HISTORY

Continued

But of all the courses we absorbed that first quarter, none are remembered as well as the one that was not on the schedule; the one we attended for nine weeks before realizing that being told once a week we would have to be professional men and give our practices to the less fortunate required a grade. Jack Pate had the best answer on that quiz - something about bats!!!

In the spring we were introduced to the numerous microbiota which we were supposed to identify by the little tracks they made on agar plates. We were also introduced to another unidentifiable species which seeped into the biota lab from the red paint on the floor.

Of all the lecturers of our freshman year, none was equal to the ambidextrous neuron counter who could trace the eastbound tracts with one hand and the westbound with the other while he explained how the Cortico-strio-pallidal and cortico-strio-trigeminal tracts intercepted at a point equidistant from the center only to divide immediately to form the **substantia confusum**.

The freshman year was a real experience for some and a real challenge for most. At the year's end, we had lost only a few but saw one-third of the class sent to **summer camp**.

Our sophomore year was strictly business with physiology, pharmacology, periodontology and pathology. We hardly had time to hit the bottle, much less see our wives and/or families.

We were introduced to many new items that year - the polygraph, the periodontal probe, the pharmacogniacs and the pathologic projector (which struck fear in the hearts of many).

Toward the end of our second year, we were beginning to look forward to the next year in the clinic. It came sooner than we anticipated (about one month actually).

The junior year was an experience we will never forget and hopefully never repeat. We started that year with many obstacles to overcome - requirements, fatigue, broken appointments, requirements, Drs. Holt and Smith, time, requirements, and slow speed handpieces.

We all worked like a batch of beavers all year, on into the summer, and proved ourselves worthy of praise - but never got it. We did manage to see to it that "**HIS**" program succeeded. Somehow we all got through but not without a few breaks - one came to Baker for his efforts in handwriting.

It was a long year with no encouragement except from one. He stuck by us all the way. Our thanks to A.T.

There was a short vacation and we were back again for our last year. It was an anticlimax after that junior year and a half.

We were all assigned a total patient. Some of them showed up, many did not. Somehow we all managed to finish but not without a few last minute panicks.

That's the way it was. Four long, traumatic years. In spite of everything the faculty thought and said, we all turned out to be DENTISTS.

Things to look forward to . . .

The trust in a little girl's eyes. Added years of health for an old man. A youngster who's no longer afraid . . .

People you'll help in your new career—things to be proud of—the reason, really, you've chosen dentistry as your life.

Great to contribute so much to so many! And even greater to think of the years ahead—years in which your work, and the way you do it, will be vital to more people than you can imagine.

As the years roll by, our job will be in helping

you perform this increasingly complex work. In doing our part, we'll get involved in such things as basic research, product cost control, safeguarding your equipment investment, better office design, work simplification, effective use of auxiliary personnel, service excellence and availability.

It all boils down to one thing: we'd like to help you provide *better dentistry for more people*. That's pretty important to everyone. Good luck in your new career, Doctor!

Selecting Your Laboratory

With Dentists who know values, the primary consideration when it comes to Laboratory service is technical knowledge and skill. Reputation — "record of performance," is of utmost importance. Reputations are built slowly, over a long period of years by fine quality and superior service. When it comes to selecting your laboratory, the deciding factors are quality, service, prestige — and other considerations less tangible than price, but much more important.

We have been in this business for fifty-one years; this accumulated store of knowledge and experience is at your command.

BluPoints®

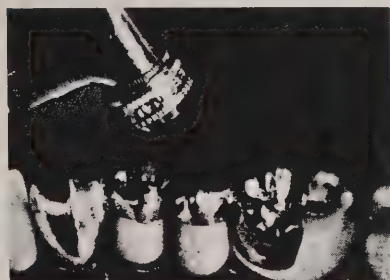

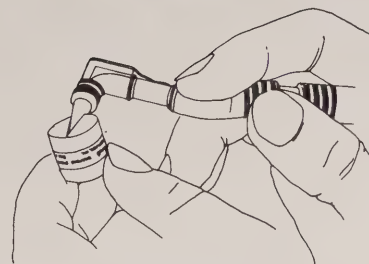

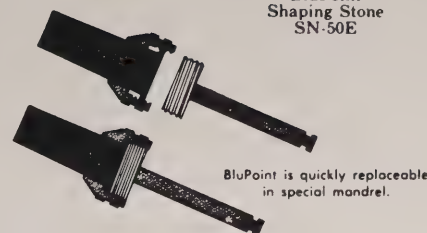

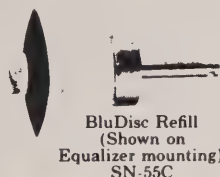

U. S. PAT. NO. 2921373

abrasive bonded rubber for finishing and polishing metal restorations of amalgam and gold

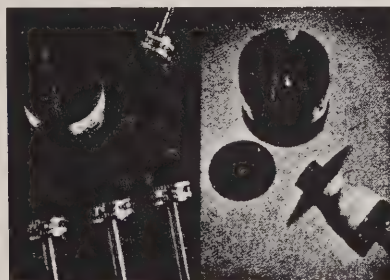

BluPoints are carefully compounded with selected abrasive and polishing ingredients to restore original surface lustre after spot-grinding adjustments. BluPoints may be quickly sharpened on the tapered half-round Daleco Shaping Stone groove to meet specific requirements. They are easily mounted and replaced in the novel life-time, two-piece mandrel. Sharpened to a point, they are excellent for polishing amalgam fillings to a mirror-like finish without overheating. They also may be used square-edged or blunt for atypical contours on clasps and other prosthetic appliances.

Shown above actual size, BluPoints are durable and inexpensive to use.

BluDiscs[™] are knife-edge shapes made of same quality material as that of BluPoints. BluDiscs will out-last, out-perform, out-polish ordinary types made of only pumice and rubber at a ratio of five to one. They hold the edge longer for smooth and glossy polishing. When they do wear to a square edge, BluDiscs may be quickly resharpened on the "V" side of the Daleco Shaping Stone to restore the knife edge. They may be easily reduced to midget sulci size.

POLISHING ACTION in BluPoints and BluDiscs is the result of abrasive bonded rubber specially compounded with rouge and tin oxide for high polish.

MANY SHAPES may be formed. Half-round groove on shaping stone shapes BluPoint at left. "V" groove resharpsens BluDisc edge at right.

INSIDE SURFACES of clasps are polished without prior shaping of BluPoint. BluPoint quickly conforms it self to proper radius during polishing

How will you present your first denture case?

Your patient is likely to be apprehensive. Chances are, you may be a little nervous yourself.

In such a situation you will want to use every possible means to gain your patient's confidence and create the proper emotional climate for your diagnosis and treatment.

Consider the Blend Selector for Trubyte Bioblend. It is an invaluable aid to natural tooth color selection. And, during the all important first appointment, it is a highly effective instrument for demonstrating your own professional knowledge and skill.

The Blend Selector is so unique it is patented. There is nothing like it in the entire world of dentistry. Ask your Trubyte Dealer to show you its use, in practice—for your first denture case, and for all the denture cases in your forthcoming career.
